| Units Produced | 12,840 | +5% vs plan |
| Yield Rate     | 96.8%  | -0.4pp      |
| OEE            | 84.2%  | +1.8pp Wow  |
| Scrap Cost (£) | £4,210 | -£680 Wow   |

## Summary

Week 13 production exceeded plan by 5%, with 12,840 units completed across Lines 1–4. The ramp-up of the new automotive contract (Jaguar Land Rover door panels) contributed 2,400 units.

Overall Equipment Effectiveness improved to 84.2%, up 1.8pp week-on-week, following the completion of planned maintenance on Line 2's stamping press over the previous weekend.

Scrap cost reduced to £4,210 (from £4,890 in Week 12), though yield rate dipped slightly to 96.8% due to material inconsistency in a batch of 3mm aluminium sheet from the new supplier.
